EDUCATION

BS Computer Science 2021-2025
GC University Faisalabad.

FAHAD ABDULLAH

Frontend | React Developer

PROFESSIONAL SUMMARY

Frontend Developer and BS Computer Science graduate specializing in React and JavaScript. Built responsive web applications using React, Tailwind CSS, React Router, useReducer, and Context API. Completed a 6-month Wix Velo internship with experience in JavaScript, databases, authentication, and email workflows. Seeking junior frontend or internship opportunities.

EXPERIENCE

Wix Velo Intern

Oct 2025 — Mar 2026

Infinity Code Solutions

- Developed web functionality using JavaScript and Wix Velo.
- Gained hands-on experience with database management, email triggers, and authentication logic.
- Strengthened JavaScript fundamentals through real-world development tasks.

PROJECTS

E-Commerce Website

React · JavaScript · Tailwind CSS · React Router · Context API · useReducer

- Built a responsive e-commerce application with product listing, search, filtering, categories, pagination, and product details.
- Implemented cart management using Context API and useReducer.
- Added authentication using Clerk and persistent cart data using Local Storage.
- Integrated the DummyJSON API for product data.

Admin Dashboard

React · JavaScript · Tailwind CSS · Syncfusion · React Router

- Built a responsive admin dashboard with reusable components, multiple pages, navigation, charts, and theme customization.
- Integrated Syncfusion components for data visualization and dashboard functionality.
- Implemented persistent theme preferences that remain saved after page refresh.

Multi-Step Form

React · JavaScript · Tailwind CSS

- Built a responsive multi-step form with navigation, progress tracking, validation, and error handling.
- Implemented persistent form data, reset functionality, and smooth UI transitions.
